POSTDOCTORAL RESEARCH OPPORTUNITIES AT THE WALTER REED ARMY INSTITUTE OF RESEARCH (WRAIR)

To remain on the leading edge of technology, a research laboratory must have a constant influx of new talent. One way WRAIR does this is through the National Research Council Research Associateship Program.
WRAIR’s Research Associateship Program prepares science and engineering researchers for the future. The Program offers an attractive stipend, health insurance and a travel allowance. Fellowship recipients are able to advance their career by conducting full-time research at a top military medical research facility, both in the United States and overseas, while contributing to the important mission areas of WRAIR.
WRAIR offers opportunities to conduct research in areas of military medicine and global health such as:

- **Military Infectious Diseases & Tropical Medicine**
  - Vector-Borne Diseases
  - Diarrheal Diseases
  - HIV
  - Viral Diseases
  - Emerging Infectious Diseases
  - Wound Infections
  - Bacterial Diseases
  - Malaria Vaccine Development
  - Drug Development

- **Combat Casualty Care**
  - Blood Pathogens
  - Brain Dysfunction and Blast Injury

- **Military Operational Medicine**
  - Sleep Management and Performance Enhancement
  - Post-Traumatic Stress Disorder
